

COMPANY PROFILE

ASIA ELECTRONICS & CELLULAR PVT LTD

62 FIRST CROSS STREET COLOMBO 11

About Us.

Established in 1983, Asia Electronic Cellular (Pvt) Ltd has grown over four decades to become a trusted direct importer, distributor, and supplier of electronic products, components, equipment, and accessories in Sri Lanka.

With extensive industry experience and a strong focus on product availability, reliable sourcing, and competitive pricing, we serve a diverse customer base including retailers, wholesalers, professional technicians, repair centres, businesses, institutions, and industrial clients.

Our comprehensive product portfolio covers ICs (Integrated Circuits), IGBTs, TV repair parts and PCBs, resistors, capacitors, LED lighting, Arduino and robotics components, mobile repair parts and accessories, appliance spare parts, electronic equipment, solar products, and electrical solutions.

AEC is particularly recognised for offering one of the largest and most diverse varieties of ICs and IGBTs in Sri Lanka.

Backed by over 40 years of experience, an extensive product range, dependable supply capabilities, and a commitment to customer satisfaction, AEC continues to build long-term relationships by providing quality products, competitive value, and professional service.

Our Philosophy.

Build Trust. Deliver Value. Grow Together.

At Asia Electronics & Cellular, we believe that a successful business is built on more than products and profits. It is built on trust, consistency, responsibility, and long-term relationships.

We are committed to continuously expanding our product range, improving our sourcing capabilities, embracing new technologies, and understanding the changing needs of our customers. Whether it is an electronic component, mobile accessory, repair equipment, lighting solution, solar product, or consumer electronic, we aim to provide products that offer reliability, practicality, and value
